All of the numbers in this comparison were pulled directly from the 2025 Municipal Mill rate Survey Results and can be found at: [Mill rate survey results](#)

A follow up regarding Buena Vista's numbers leads me to believe that an error was made in either their reporting or the data transfer. A review of the 2024 AFS of Buena Vista would indicate that their average municipal mill rate is closer to 9.79, 2025 AFS were not available for review.
